

# Get to Know us!

## Our Approach:

Camp Harvest's primary mission is to **support local church youth ministries by shouldering the logistical responsibilities of camp**, such as staffing and scheduling. Our aim is to relieve both campers and ministry workers of these burdens, allowing them to focus on their spiritual journey. While we have a standard camp schedule, we are flexible and prioritize your specific program needs.

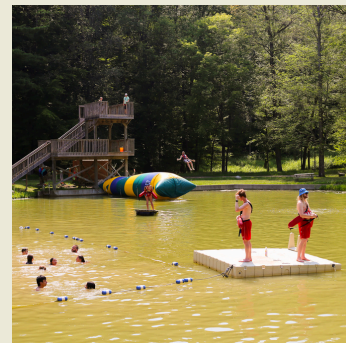

Our dedicated staff handles various roles, including kitchen work, lifeguarding, activities, health services, worship, and custodial duties, ensuring a smooth camp experience. **This allows your church leaders to concentrate solely on guiding the children in their spiritual growth.** So the leaders and church staff that you bring are the ones that would be directly ministering to the kids as cabin leaders and speakers. Our staff takes care of the rest!

## Lodging & Amenities

- Towels

# How Camp Works

## Swim Check

Once the campers arrive at camp, our lifeguards will do a swim test to ensure all campers are able to safely enjoy all our water activities. Lifeguards will supervise all water time for the remainder of the camp.

## Leader's

At least one leader per cabin is provided by the church and they must pass a background and reference check

## Health Officers

We have health officers that are trained to administer medications and care for your campers, however they need it.

## Health History

Campers will fill out a health history form during registration that will inform us of any medications/conditions our staff needs to be aware of
